The 28th Annual Conference of Associate of Chinese Chemists and Chemical Engineers in Germany (GCCCD®) will be held on October 29th ~ 30th, 2016 in Munich, Germany. GCCCD® Annual Conference is a platform to exchange ideas and to discuss advances in chemical academia and industry among scientists and engineers who are passionate about Chemistry and Chemical Engineering. This year, with the theme “Chemistry and Chemical Engineering for Sustainable Development”, we will discuss the roles of chemistry and chemical technologies in environment protection, renewable energy, novel materials, green chemistry, and intellectual property. In this event we also established a tradition to grant GCCCD® Excellent PhD Supervisor Award to professors who are active in promoting Chinese chemists and chemical engineers’ study and research in Germany.

GCCCD® is a non-profit organization founded in 1988 in Bonn and registered at the District Court in Karlsruhe in the same year. GCCCD® became an oversea branch of Chinese Chemical Society (CCS) in 1989 and an oversea branch of the Chemical Industry and Engineering Society of China (CIESC) in 2015. It is also a founder and a board member of the Federation of Chinese Professional Associations in Europe (FCPAE).
